Hi All,

Attached is an informal write up of the minutes from our last meeting. The agenda is in black and the discussion is in red ink. If there are any changes to be made, please let me know.

Some books that I have found that I thought would be useful are below. Let me know what you think and what you would like to add.

From the American Psychological Association:

- Publication Manual of the American Psychological Association (do we also need one for MLA?)
- Reporting Research in Psychology: How to meet journal article reporting standards (I hope this would be helpful across disciplines who use APA style)
- Presenting Your Findings: A practical guide for creating tables
- Studying Ethnic Minorities and Economically Disadvantaged Populations
- Advanced Methods for Conducting Online Behavioral Research

Sage Publications

- Qualitative Inquiry and Research Design, John Creswell
- Basics of Qualitative Research, Juliet Corbin
- Analyzing Qualitative Data, H. Russell Bernard and Gery W. Rand
- The Coding Manual for Qualitative Researchers, Johnny Saldana
- Designing and Conducting Mixed Methods Research, John Creswell and Vicki Plano Clark
