Dear Research Committee Member:

We are in the process of planning our schedule of programs for the Fall 2011-Spring 2012 academic year.

More specifically, we are considering three types of programs to assist faculty in their research efforts: (1) opportunities to present research to the NSU academic community, (2) "Research Problem Solving Sessions" (explained in more detail in the attachment), and (3) a variety of research training sessions.

We would greatly appreciate your input concerning our proposed activities. To minimize your time, we have asked for specific responses to our proposed offering in the materials that are attached. However, if you have time to offer more detailed feedback, please include this feedback with your emailed response. We are "open" to both additional types of programs beyond the three types we have proposed as well as to suggestions for different sessions within each topic.

To allow us sufficient time to schedule speakers, please return this document along with your saved responses to Kathy Simms (kcsimms@nsu.edu) by Thursday, June 30, 2011.

Sincerely,

 Desi Hacker, Director
dshacker@nsu.edu

Kathy Simms, Research Methodologist/Statistician
