Hi George,  
 Per your request I drafted a spreadsheet based on what we talked about in today's meeting.

Note this is a draft. There is more to be added, modified, etc.  
 Bill

P.S. What is your area of expertise in computer science? As an undergraduate I double majored in computer science and psychology. I had an interest in artificial intelligence at the time (neural networks and all that). I was going to study A.I. in grad school, but a trip to China got me interested in things international and intercultural. Got married while there. My wife is Chinese. Came back and got a Ph.D. with a focus in intercultural/international communication. Still have a strong appreciate and knowledge of things technical as well. Doing some research on videogames here more recently.

William Hart, Ph.D.

 Subject: FPEC meeting minutes

Dear All,

The meeting is going to be held in my lab conference room as last time. I am unable to attend due to a doctor appointment and Dr. Harrison has kindly agreed to lead this week's meeting.

Please find attached meeting minutes. Please make any necessary edits and vote on accepting the minutes and note any changes to be made in order to reflect the meeting's proceedings. I tried to capture most of what was discussed, if I missed something, please add.

Thank you,  
 Rasha
